

CCTV Emergency Crime Prevention Call Point

Image is illustrative as the system is fully customizable

DESCRIPTION

Ultrakpa new innovative solution represents a benchmark of the surveillance field for CRIME PREVENTION instead of just monitoring it; with allowing effective participation in the event forcing your intruder to run away instead of chasing him; all this and more by an integrated customizable solution to fit your special requirements.

Ultrakpa new CCTV emergency solution recruits everyone passing in the street in your security department as any witness can activate the fully customized emergency solution allowing your security members to participate instantaneously and remotely in the crime prevention via live and pre-recorded threatening messages and serein systems alerting your residential compound, campus or any other application.

The system components are weatherproof, with optional UPS operation maintaining reliable flexible operation providing scalability designed to endure 24/7 usage, covering all customer needs.
